HANDS-FREE, LLC Quikiks Hands-Free Shoes

Quikiks, the first fully supportive, totally hands-free operable shoes, are a revolutionary new advance in footwear that allow the wearer to step easily into the shoes and securely lock their feet comfortably in place. Using our patented Step-in-Go Technol-

ogy, Quikiks provide hands-free operation for people lacking the ability to use traditional shoe fasteners such as laces, buckles or Velcro straps. Visit quikiks.com.
